## Making Your Home Safe for the Holiday

The missing water from the chimney with care as the furnace holiday season ready but did not use an idea making sure these stockings were empty!! The Greater Harrisburg Association of Realtors and its members offer the following home safety tips to ensure a happy and safe holiday season for you and your family.

Decorating your home is a pleasure for all. However, decorations can be a person's enemy. In this time of the year, it is important to pay extra attention to safety factors, particularly those involving fire. Decorations, especially those involving candles, can cause a disaster. Make sure that all electrical cords, lights and ornaments are approved by a listing agency such as UL (Underwriters Laboratories). Items are in good condition or have been tested in a laboratory. Items are placed out of the normal traffic path in your home and do not obstruct or hinder traffic. Items are secured on the ground if you have pets. Keep up on your traffic patterns as well, and plan accordingly.

## TERRY SAYS: 200 Vehicles Will Be Sold Before 1990 Ends.

Keep your Christmas tree from becoming the water level daily selecting decorative lights that do not generate large amounts of heat and placing the tree away from direct sources of warmth such as radiators, fireplaces and hot air ducts. Time lights should be checked in the attic to prevent fire. Make sure that all electrical cords, lights and ornaments are approved by a listing agency such as UL (Underwriters Laboratories). Items are in good condition or have been tested in a laboratory. Items are placed out of the normal traffic path in your home and do not obstruct or hinder traffic. Items are secured on the ground if you have pets. Keep up on your traffic patterns as well, and plan accordingly.
